

STATE OF ILLINOIS
ILLINOIS COMMERCE COMMISSION

GLOBALCOM, INC.

vs.

ILLINOIS BELL TELEPHONE COMPANY

In the Matter of a Complaint Pursuant to 220
ILCS 5/13-515, 220 ILCS 5/10-101 and 10-108

Docket No. 02-0365

AFFIDAVIT OF RICH GIMENEZ

Q. Have you reviewed the Affidavit of Eric L. Wince attached to "Globalcom's Response to Ameritech's Motion to Dismiss"?

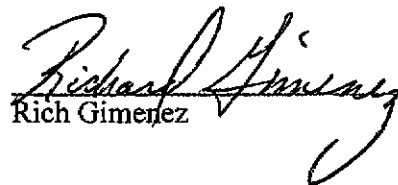

A. Yes, I have.

Q. In his Affidavit, Mr. Wince states that in a conversation that he had with you on or about May 23, 2002 you told him that termination charges under FCC Tariff No. 2 would not apply to the reclassification of interstate special access circuits to intrastate circuits. Is Mr. Wince's statement accurate?

A. No. In the event that a customer such as Globalcom seeks to "reclassify" an interstate special access circuit as intrastate prior to the expiration of the OPP term under which the interstate special access circuit is purchased, termination charges will apply in accordance with the terms of Tariff FCC No. 2. The "reclassification" in this situation involves a termination of service under the interstate tariff and the initiation of service under the Illinois tariff. I have never indicated to Mr. Wince or any other employee of Globalcom that the termination charges under the FCC tariff would not apply in such a situation.

Q. Does this conclude your Affidavit?

A. Yes.
